Hydrobiologia **408/409:** v–viii, 1999.
N. Walz & B. Nixdorf (eds), Shallow Lakes '98

Contents

Preface ix
List of Participants ..... xi–xviii

Littoral-pelagic interactions and management

Restoring nutrient-enriched shallow lakes: integration of theory and practice in the Norfolk Broads, U.K.
by F. J. Madgwick 1–12
Biomanipulation in shallow lakes in The Netherlands: an evaluation of 18 case studies
by Marie-Louise Meijer, Ingeborg de Boois, Marten Scheffer, Rob Portielje & Harry Hosper 13–30
Reduction of *Microcystis* blooms in a hypertrophic reservoir by a combined ecotechnological strategy
by Thomas Deppe, Klaus Ockenfeld, Andreas Meybohm, Michael Opitz & Jürgen Benndorf 31–38
Predation by piscivorous fish on age-0 fish: spatial and temporal variability in a biomanipulated lake (Bautzen reservoir, Germany)
by Hendrik Dörner, Annekatrin Wagner & Jürgen Benndorf 39–46
Cannibalism as a regulatory force of pikeperch, *Stizostedion lucioperca* (L.), population dynamics in the lowland Sulejow reservoir (Central Poland)
by P. Frankiewicz, K. Dabrowski, A. Martyniak & M. Zalewski 47–55
Is the difference in population dynamics of *Daphnia galeata* in littoral and pelagic areas of a long-term biomanipulated reservoir affected by age-0 fish predation?
by Stephan Hülsmann, Thomas Mehner, Susanne Worischka & Matthias Plewa 57–63
A comparative study on the feeding of eel, *Anguilla anguilla* (L.), bream, *Abramis brama* (L.) and ruffe, *Gymnocephalus cernuus* (L.) in Lake Võrtsjärv, Estonia
by Külli Kangur, Andu Kangur & Peeter Kangur 65–72
The role of benthivorous and planktivorous fish in a mesotrophic lake ecosystem
by Juha Karjalainen, Markus Leppä, Minna Rahkola & Kimmo Tolonen 73–84
The stability of fish communities in shallow lakes undergoing restoration: expectations and experiences from the Norfolk Broads (U.K.)
by M.R. Perrow, A.J.D. Jowitt, S.A.C. Leigh, A.M. Hindes & J.D. Rhodes 85–100
Habitat use and recruitment: a comparison of long-term recruitment patterns among fish species in a shallow eutrophic lake, Oneida Lake, NY, U.S.A.
by Spencer R. Hall & Lars G. Rudstam 101–113
Utilization of natural and artificial habitats by YOY pike in a biomanipulated lake
by Christian Skov & Søren Berg 115–122

Feeding habits of two introduced fish species (*Lepomis gibbosus*, *Pseudorasbora parva*) in Neusiedler See (Austria), with special reference to chironomid larvae (Diptera: Chironomidae)
by Anita Wolfram-Wais, Georg Wolfram, Brigitte Auer, Ernst Mikschi & Arno Hain 123–129
Direct and indirect effects of carp (*Cyprinus carpio* L.) on macrophyte and benthic communities in experimental shallow ponds in Central Mexico
by Luis Zambrano & Demián Hinojosa 131–138
Neutral network models as a management tool in lakes
by Cüneyt Karul, Selçuk Soyupak & Coşkun Yurteri 139–144

Sediments and Benthos

Internal phosphorus loading in shallow Danish lakes
by Martin Søndergaard, Jens Peder Jensen & Erik Jeppesen 145–152
Hydrothermodynamic features of mass exchange across the sediment–water interface in shallow lakes
by Sergey D. Golosov & Natalia V. Ignatieva 153–157
The N and P budget of the shallow, flushed lake Müggelsee: retention, external and internal load
by Hans-Peter Kozerski, Horst Behrendt & Jan Köhler 159–166
Horizontal distribution of sediment phosphorus in shallow eutrophic Lake Võrtsjärv (Estonia)
by Peeter Nõges & Anu Kisand 167–174
Comparison of phosphorus release from littoral and profundal sediments in a shallow, eutrophic lake
by Frede Ø. Andersen & Peter Ring 175–183
Surficial sediment composition as a record of environmental changes in the catchment of shallow Lake Petersdorf, Brandenburg, Germany
by Andreas Kleeberg, Doris Jendritzki & Brigitte Nixdorf 185–192
The zoobenthic community of shallow salt pans in Austria – preliminary results on phenology and the impact of salinity on benthic invertebrates
by Georg Wolfram, Karl Donabaum, Michael Schagerl & Verena A. Kowarc 193–202
Diversity of invertebrate fauna in littoral of shallow Myczkowce dam reservoir in comparison with a deep Solina dam reservoir
by Tadeusz Prus, Mirosława Prus & Paweł Bijok 203–210
Effect of hydrodynamic factors on benthic communities in Lake Kinneret
by B. Shteinman, Y. Kamenir & M. Gophen 211–216

Plankton in shallow lakes

Trophic dynamics in turbid and clearwater lakes with special emphasis on the role of zooplankton for water clarity
by Erik Jeppesen, Jens Peder Jensen, Martin Søndergaard & Torben Lauridsen 217–231

Plankton dynamics in a river-lake system – on continuity and discontinuity
by Martin Welker & Norbert Walz 233–239
Diel variation on horizontal distribution of *Daphnia* and *Ceriodaphnia* in oligotrophic and mesotrophic lakes with contrasting fish densities
by Torben L. Lauridsen, Erik Jeppesen, Stuart F. Mitchell, David M. Lodge & Romi L. Burks 241–250
On the occurrence of clear-water phases in relation to shallowness and trophic state: a comparative study
by Rainer Deneke & Brigitte Nixdorf 251–262
Hepatotoxic cyanobacteria in the shallow lake Müggelsee
by Martin Welker, Sigrid Hoeg & Christian Steinberg 263–268
Spring phytoplankton dynamics in a shallow eutrophic lake
by Mechthild Schmitt & Brigitte Nixdorf 269–276
The effect of extreme water level decrease on hydrochemistry and phytoplankton in a shallow eutrophic lake
by Tiina Nõges & Peeter Nõges 277–283
Comparison of the areal amount of chlorophyll *a* of planktonic and attached microalgae in a shallow coastal lagoon
by D. Conde, S. Bonilla, L. Aubriot, R. de León & W. Pintos 285–291
Lake Plessa 107 (Lusatia, Germany) – an extremely acidic shallow mining lake
by Dieter Lessmann, Rainer Deneke, Remo Ender, Mike Hemm, Maria Kapfer, Hartwig Krumbeck, Kathrin Wollmann & Brigitte Nixdorf 293–299
Autotrophic picoplankton dynamics in a small shallow lake
by Elżbieta Szeląg-Wasielewska 301–306

Macrophytes

The effect of aquatic vegetation on turbidity; how important are the filter feeders?
by Marten Scheffer 307–316
Nutrient content in macrophytes in Spanish shallow lakes
by Margarita Fernández-Aláez, Camino Fernández-Aláez & Eloy Bécares 317–326
The phytosociological characteristic and habitat requirements of the *Phragmitetum communis* (Gams 1927) Schmale 1939 phytocoenoses in the lakes of the Wielkopolski National Park
by Mariusz Pełechaty 327–334
Dynamics and stability of *Chara* sp. and *Potamogeton pectinatus* in a shallow lake changing in eutrophication level
by Marcel S. Van den Berg, Marten Scheffer, Egbert Van Nes & Hugo Coops 335–342
Internal and external nutrient cycles in stands of *Phragmites australis* – a model for two ecotypes
by Indra Lippert, Hardy Rolletschek, Harald Kühl & Johannes-Günter Kohl 343–348

Nutrient loading and dynamics

Shallow lakes in lowland river systems: Role in transport and transformations of nutrients and in biological diversity
by Anna Hillbricht-Ilkowska 349–358
Multi-lake studies in The Netherlands: trends in eutrophication
by D.T. Van der Molen & R. Portielje 359–365
Problems in estimating phytoplankton nitrogen limitation in Shallow Eutrophic Lakes
by Guntram Weithoff & Norbert Walz 367–373
Relationship between eutrophication variables: from nutrient loading to transparency
by R. Portielje & D. T. Van der Molen 375–387
Dimictic *versus* polymictic masurian lakes: similarities and differences in chlorophyll-nutrients-SD relationships
by Lech Kufel 389–394
